

KEG CHANGER

Automation matters.

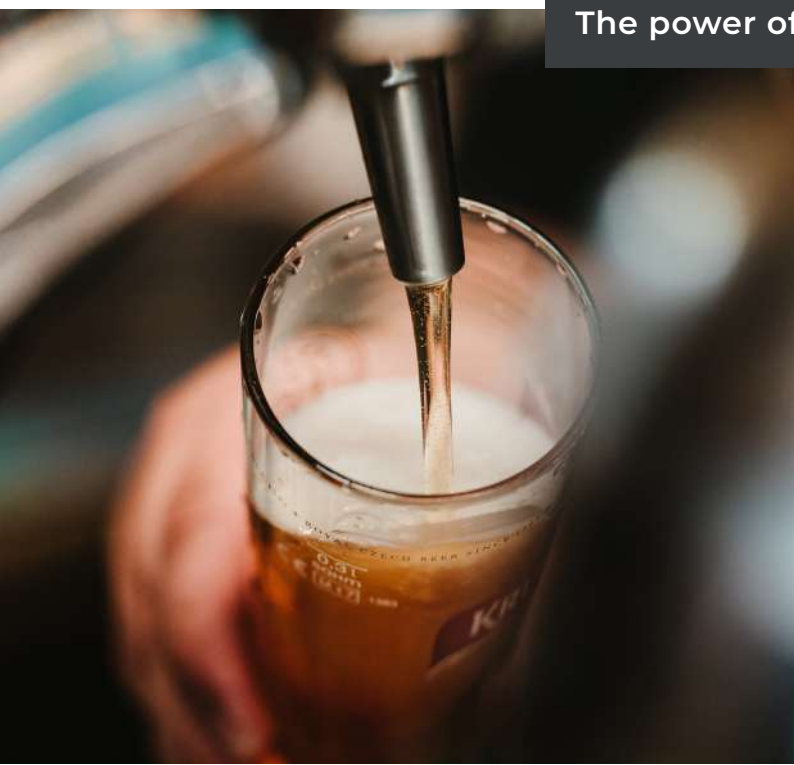

Drive increased sales by 4x, while we take care of the keg switching

Non-stop service!
No downtime at the end of a keg

Facilitate the bar **operations**, with the Keg Changer. It will switch amongst 4 kegs instantaneously and **automatically** once a keg is detected empty.

The power of the Keg Changer environment

- ⊕ Fully automated and intuitive: plug'n'serve
- ⊕ Time saver! Automated keg switch in less than a second
- ⊕ Easy integration in any traditional beer installation
- ⊕ Minimal manipulation required by the bar staff
- ⊕ A constant high-quality of beer, thanks to the auto-purge feature

Enable your IoT world with Drinkotec

With 40 years of expertise in beverage dispensers, Drinkotec knows the industry's needs inside out. Over the years we created an **360° ecosystem** where Data matters.

All our devices are connected to a unique secured analytics platform: **Loop³⁶⁰ Analytics**.

Beverage brands and their customers will empower the teams with this **powerful & user-friendly** beverage operations platform to manage sales, marketing, technical, inventory operations and drive customer success.

Technical features

- ⊕ Installation inside or outside the cold room, or in your Cellar. Max. 3 meters away from the kegs
- ⊕ A 7" touch screen where you can visualize percentage of volumes lefts in each plugged keg
- ⊕ Beer pump: supply multiple taps from one keg changer
- ⊕ Blocking valve: to close all the lines directly from your device
- ⊕ Exists in two versions: up to 2 kegs, up to 4 kegs
